TABLETOP LABEL FINISHER
DUAL

Tabletop Digital Label Finishers

Cut any shape digitally, without the use of dies

The DLF-220S Dual Plotter Digital Label Finisher integrates unwinding, laminating, contour cutting, waste removal, slitting, and rewinding within a unified process.

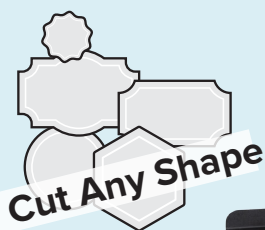

Designed for on-demand label finishing, the system incorporates two plotter cutters to optimize cutting efficiency. This feature not only enhances production speed, but also offers cost-effective operation for businesses looking to manage diverse label finishing demands.

No Dies Needed

SPECIFICATIONS — DLF-220S Dual

Input / Output Roll Diameter	7.87" (200mm)
Maximum Web Width	8.86" (225mm)
Minimum Web Width	4.25" (108mm)
Maximum Cutting Width	7.87" (200mm)
Maximum Label Length	13.77" (350mm) with limitations
Minimum Label Length	0.39" (10mm)
Number of Slitting Blades	up to 8
Minimum Slitting Width	0.75" (19mm)
Lamination Module	Yes
Maximum Media Thickness	0.01" (0.25 mm) (10 mil)

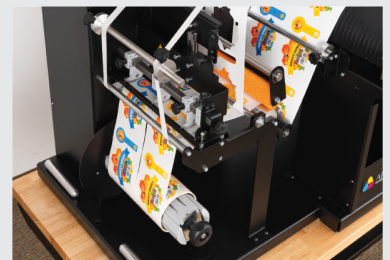

Maximum Cutting Speed	24in/s (600mm/s) in all directions
Roll Core Size	3" (76mm)
Agency Certifications	CE, FCC, RoHS
Dimensions	L = 172 cm (67.71") H = 75 cm (29.52") W = 78 cm (30.7")
Computer Requirements	Software running with Windows 8.1 or later. Not supported by macOS. PC needs 2 USB ports for plotters.
Power Requirements	100-240 VAC, 240 watts
Programmable Cut Force	20 gf - 300 gf in 31 steps (Max 300 gf)
Warranty	Two Year Parts and Labor. Usage Limitation may apply
Afinia part numbers	DLF-220S: 40303

Intuitive and Powerful Software

The integrated software, paired with CCD cameras, fine-tunes cutting positions.

The ease of importing a PDF cutting file further simplifies this process, allowing for easy adjustments on the fly.
